At a ceremony in Silverthorne, Colorado, we presented the *Mountain Living* Peak Award to **Pinnacle Mountain Homes** for their home at **1062 Beeler Place** in Copper Mountain.

The 6,600-square-foot home was created with vacation rentals and a multi-generational gathering place in mind, with five levels, 8 baths and comfortable sleeping for 28 people in 7 bedrooms (boys and girls bunk rooms sleep up to 16). The architecture, construction and interior design worked beautifully together to efficiently utilize every square inch of space in this thoughtfully planned layout. The lower level spells fun with a pool table, home theater and eight-person hot tub. Take a tour below.
